

WAC

Designed as an updated version of a vintage Industrial design, this Steampunk lantern pairs clear hammered and seeded mouth-blown glass with die-cast aluminum.

Lamped with an LED light source of 3000K and 90 CRI, the fixture can be used indoors or outside and is offered in 2 sizes and 2 architectural finishes. It is IP65-rated for wet locations and dims via an electronic low-voltage dimmer. It has an estimated 80,000-hour lifespan.

PROGRESS

The new Tally fixture takes a simplified classic form and updates it with modern inspiration. Its angular arms and linen-finished glass offer visual interest that complements relaxed environments.

CSL

With a curved silhouette, the Contour sconce casts warm vertical illumination from top and bottom. It is powered by a 120-volt, 18-watt LED that provides 1,260 lumens and has 90 CRI.

The ADA-compliant dimmable fixture is UL/cUL-listed for damp and wet locations and has an aluminum frame offered in many finishes.
