

ARK

The company's standard gooseneck and 16-inch shade boasts a Black painted finish and is shown with a globe and guard set assembly that is one of its most popular barn lighting kits. The fixture is equipped with an LED A19 bulb (equivalent to a 60-watt incandescent) to complete the Retro-style motif while remaining energy-efficient and durable. All of Ark Lighting's barn lighting fixtures are made in the USA with heavy-gauge steel and are powder-coated to withstand the outdoor elements.

EDGE

The TV LED sconce can be custom-engraved (with a detail such as an address number or logo) and is illuminated with warm-white LEDs in 2972K. The ADA-compliant fixture can be used indoors or outside and is offered with either a White or Satin Aluminum base. The clear UV-stable diffuser will not discolor over time.

CORBETT

Evoking the Art Deco glamour of Rockefeller Center or the Chrysler building, the Manhattan fixture is an upscale LED pendant that channels big city sophistication. Bands of handcrafted iron and stainless steel finished in satin silver leaf hold glass tubes of staggered lengths, making up a traditional form. The smooth, fluted and twisted glass tubes create an elegant mix of clear and frosted textures. Manhattan is available in three pendant sizes and a wall sconce.
