

LEAN & GREEN

Introduced last month, the **Portal ceiling fixture** is a sleek and modern representation of the classic nautical bulkhead. The replaceable LED source features energy savings and low-maintenance benefits while providing a 3000K, 90+ CRI performance. It is ENERGY STAR-qualified and California Title 24-compliant. www.progresslighting.com

The **Arles Sun LED** high bay fixture is available in LED wattages that can produce up to 4,000 lumens. It can be installed as a pendant or flush-mount and available in a variety of finishes to color-coat the shade. Pick any one of the manufacturer's optional lenses to accessorize the fixture and decide on the exact mounting specifications to best meet the project's needs. www.hilitemfg.com

The **Gravity fixtures** are now available in 5 vibrant colors: Green, Red (shown), Amber, Black Light, and Blue. Featuring a 120-220V, 9-watt LED and delivering 450 lumens. Gravity is not only energy-efficient, but visually striking with an opal glass inner diffuser and clear glass outer cylinder with diecast aluminum housing. It is ADA-compliant, UL- and cUL-listed and available in wall and flushmount styles. www.csllighting.com

LEAN & GREEN

A **bold prismatic glass shade** is the focal point in this LED pendant. These modern, industrial-inspired fixtures provide clean and bright illumination while offering style and versatility. ENERGY STAR-qualified and California Title 24-compliant, the fixture provides a replaceable 3000K, 90+ CRI LED source. www.progresslighting.com

The **CCTLed Architectural Mini Adjustable** is a compact 4-inch aperture, LED recessed downlight projector that delivers a high-performance, versatile, and precision-aiming solution for architectural lighting. The die-cast aluminum profile features an interchangeable optic group with an incorporated heat dissipation system that utilizes a unique friction rotation system to manually aim from up to 30 degrees in the vertical plane and 355 degrees in the horizontal plane. A versatile optic system with 4 beam spreads plus interchangeable reflectors and trims address individual project requirements for a versatile solution. The CE- and UL-listed CCTLed Mini offers a tool-free mounting installation system for mounting into ceiling housing assemblies. www.targetti.us

The **Waymarkers** are clever laser-cut emergency/exit lighting in 6 unique designs: a WiFi Hotspot marker, a Martini/Bar marker, a Restroom marker, a Coffee/Food marker, a Smoking marker, and Swimming marker. The 10-inch square Waymarkers are made of laser-cut aluminum and have a wide selection of acrylic diffuser colors and textures. The fixture has an 18-watt LED 120-volt light engine offering 2700°K ±100, 90 CRI, 1260 lumens with incandescent dimming. They are ADA-approved as a wallmount, and UL-cUL-listed for damp locations. Custom sizes and designs will be available. www.csllighting.com
