CSL | ACROBAT DOWNLIGHTS

The Pinnacle of Performance and Precision
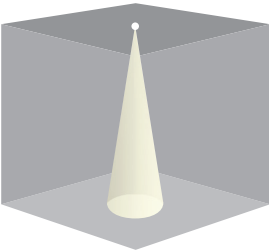

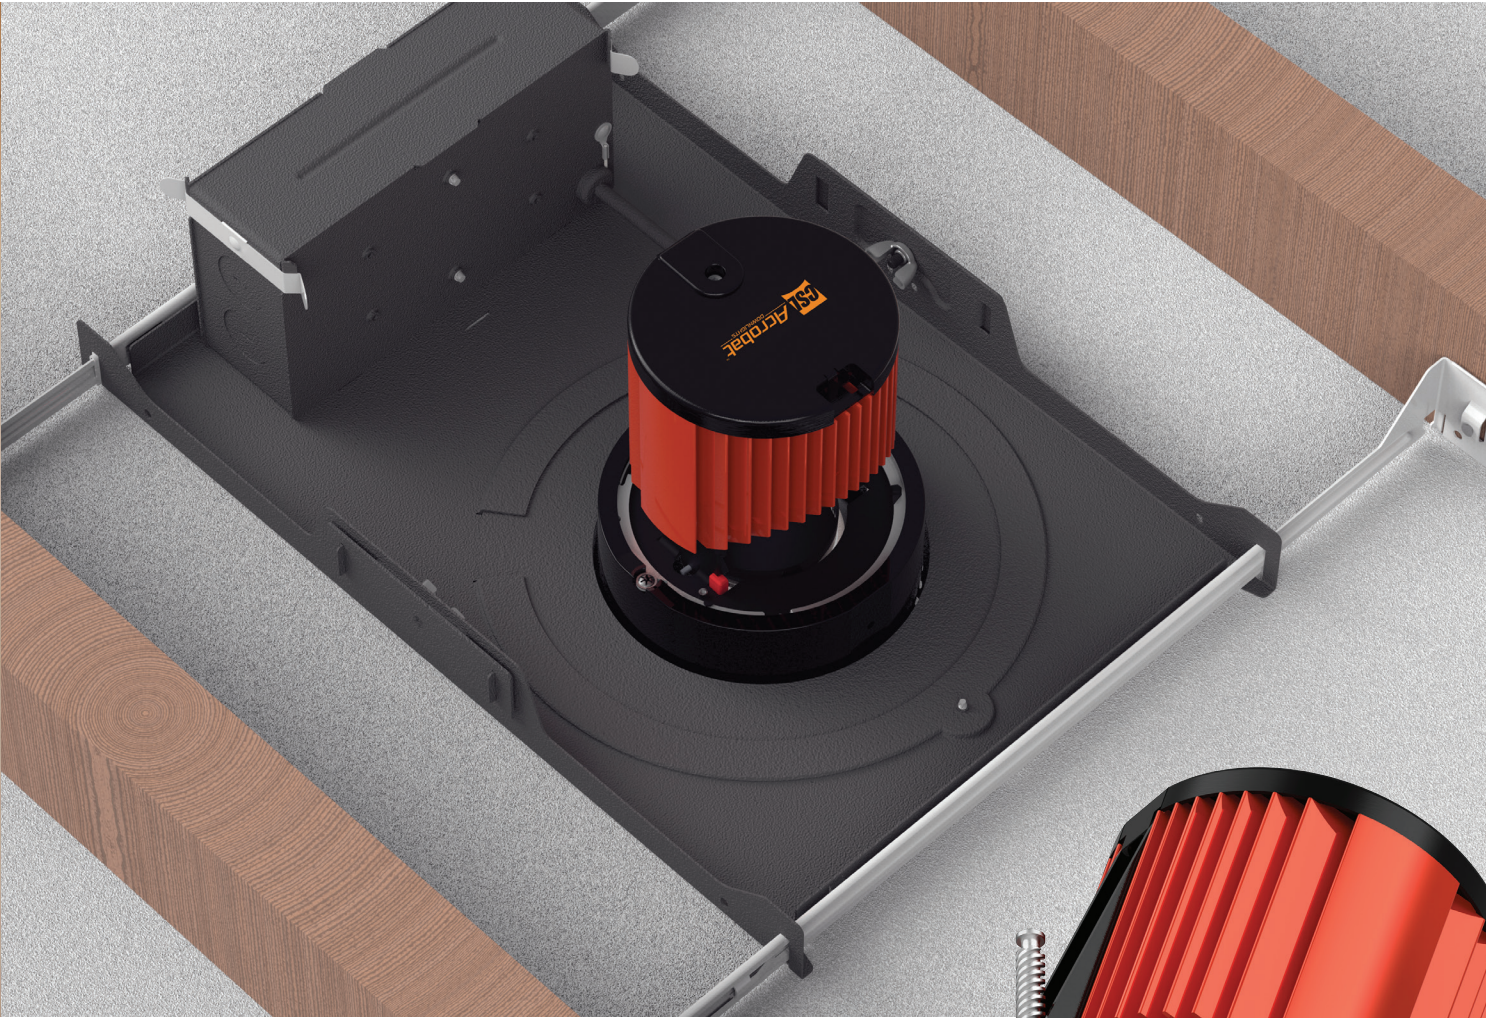

1", 2", 3", 4" LED Recessed Downlight

PERFORMANCE

The Acrobat recessed lighting system is the ultimate performer, engineered to deliver premium light quality and control in any application, to the most exacting standard.

10° Spot   30° Narrow Flood   50° Flood   80° Wide Flood

PRECISION

Acrobat's light module installs separately from the housing, at the end of construction. It easily adjusts up or down, independent of the housing, to guarantee a tight fit between the optic holder and the reflector to hide internal components and maintain a professional, clean look below the ceiling.

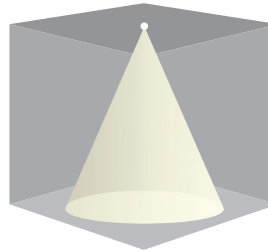

BELOW CEILING ADJUSTMENT
Lead Screw

Adjustability is quick, easy, and precise. The light module rotates 360°. A twist of the custom lead screw tilts the module to the desired degree and locks it in place.

Fixed   Adjustable   Wall Wash

DESIGN

Acrobat LED modules house CSL's patented Silent Vu™ optics, a unique system that converges light output through the optic to provide quality light with minimal glare.

REFLECTOR
Round or Square Shape
Standard, Pinhole, Slot Pinhole, Wall Wash, Adjustable Lensed Style
White, Black, Champagne, Satin Aluminum, Clear Alzak Finish

MEDIA
Clear Lens, Solite Lens,
Frosted Lens, Linear Spread Lens

ADJUSTABLE
Lead Screw
0° to 40° tilt (Adjustable housings only)

INPUT VOLTAGE
120-277V, 50/60Hz
Multiple Dimming Drivers Available
Below Ceiling Access

LED LIGHT ENGINE
1", 2", 3", 4"
10W, 15W, 20W, 25W, 30W, 35W
2700K, 3000K, 3500K, 4000K, Warm Dim
90+ CRI, 2-Step SDCM
55,000 HOURS @ L90

OPTIC HOLDER

MEDIA HOLDER

OPTIC LENS
1", 2", 3", 4" Aperture
10° Spot, 30° Narrow Flood, 50° Flood, 80° Wide Flood

TRIM
Round or Square Shape
Standard, Trimless, Wood Ceiling Style
White, Black, Champagne, Satin Aluminum Finish

Some models may have limited options available. See specification sheet for details.
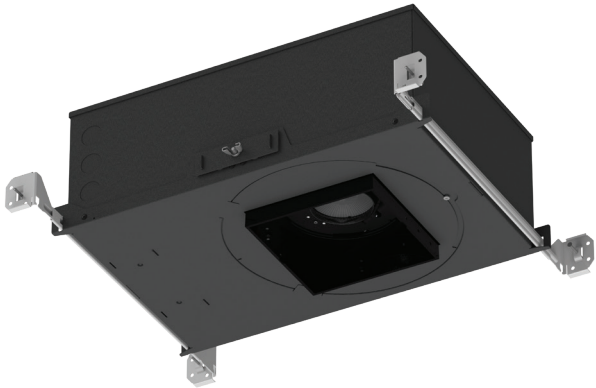

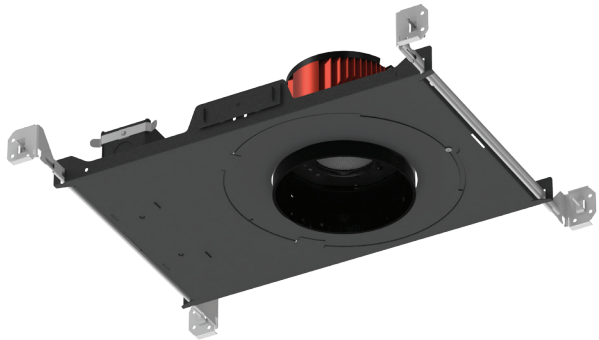

HOUSING
NEW CONSTRUCTION, REMODEL

Acrobat's housings are designed and engineered to fit into tight spaces and optimize performance in any type of installation environment and ceiling material.
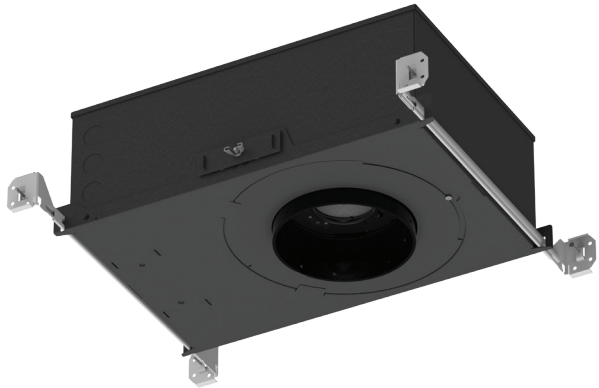

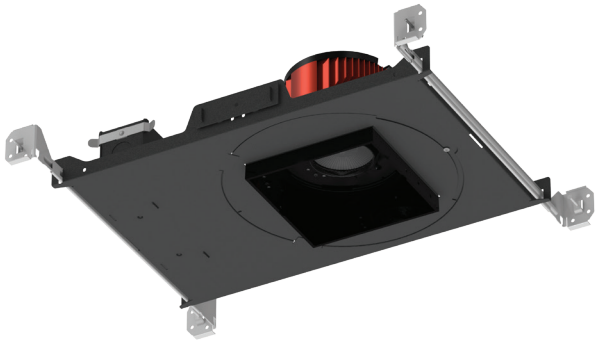

**IC-R**

Adjustable New Construction IC Housing - Round

**IC-S**

Adjustable New Construction IC Housing - Square

NC-R

Adjustable New Construction Housing - Round

NC-S

Adjustable New Construction Housing - Square

RM-R

Adjustable Remodel Housing - Round

RM-S

Adjustable Remodel Housing - Square

Some models may have limited options available. See specification sheet for details.

HOUSING
SHALLOW PLENUM

Shallow plenum housings adjust to any type of ceiling. They come ready to install into 2½" plenums with IC, Air Tight, and Chicago plenum (CCEA) certifications.

Minimum Plenum Height 2½ Inch

SIC-R

Shallow Plenum New Construction IC Housing - Round

SNC-R

Shallow Plenum New Construction Housing - Round

SIC-S

Shallow Plenum New Construction IC Housing - Square

SNC-S

Shallow Plenum New Construction Housing - Square

CEILING THICKNESS

-0

⅝" Ceiling Thickness

-1

1¼" Ceiling Thickness

-2
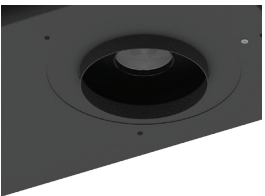

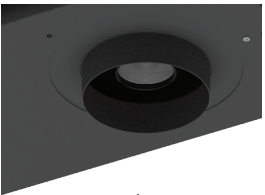

2" Ceiling Thickness

Some models may have limited options available. See specification sheet for details.

1. Custom color only available for ST (Standard) Trim and ST (Standard), AL (Adjustable Lens) Reflectors only, contact CSL for details.
2. Wet Location rated when used with Additional Reflector Lens.
3. Must be ordered with corresponding Additional Reflector Lens.

4. CA (Clear Alzak) Finish only available for Round reflectors as ST (Standard) or AL (Adjustable Lens) styles.
5. Must be used with TL or WC trim style.

4" NEW CONSTRUCTION, REMODEL (EXAMPLE: A4-IC-RST-10S-SHB)
